

## VISION

Providing a platform for world class technologies in Africa and the world.

## VALUES

Our core values are trust, integrity and respect.

## MISSION

To be a market leading contract manufacturer by building sustainable and mutually beneficial partnerships with our customers.

### Engineering Capability

Our experience in new product introduction can assist customers in improving manufacturability, thereby reducing cost. Prototyping of new designs is a key service offering, including the design and manufacture of test solutions.

ZYTEQ  
Your Complete  
Technology Partner

## INTRODUCTION

ZYTEQ Technologies. Your partner in providing world class Contract Electronics Manufacturing solutions. A team with over a decade of experience in electronics manufacturing for local and export markets. ZYTEQ provides a complete industrialisation solution to customers who require reliable, high quality and cost competitive products and services.

### Material Sourcing

ZYTEQ is able to provide a complete and cost effective material procurement solution for electronic applications. We carry a range of common value, passive components for our customer's convenience. Our systems are flexible and can accommodate whole and part kitting, or a complete procurement solution. We provide secure management of customer consigned inventory.

### On Time Delivery

ZYTEQ is committed to meeting customer delivery expectations. We understand that service delivery is critical to our customers. Our computerized forecasting and planning capabilities enable us to accurately communicate expected delivery dates. ZYTEQ aims to achieve an on time delivery to our customers of greater than 95%.

### Quality System

With over a decade of experience in building life safety electronics, quality is the core philosophy of the team. ZYTEQ has a comprehensive quality management system with a fully equipped quality facility. ZYTEQ Quality Management System complies with the requirements of ISO 9001:2008 and the manufacturing facility applies workmanship standards to IPC-A-610 Level 2.

## Our Team

Our team has extensive experience across all aspects of electronics manufacturing and customer support. ZYTEQ's operating philosophy is built upon employee involvement and follows lean manufacturing principles. Our employees are shareholders in the business through the ZYTEQ Staff Trust. The Company has a level 4 BBEE certification level.

### Surface Mount Technology (SMT)

Excellence in SMT is our core competency and supports much of our manufacturing activity. In-house facilities permit the manufacture of both leaded and lead-free (RoHS compliant) product. ZYTEQ has the ability to place all types of component packages including BGA devices. Automated Optical Inspection equipment checks and monitors component placement and solder quality. For more detailed information on equipment and capacity, please refer to the ZYTEQ website at [www.zyteqtechnologies.com](http://www.zyteqtechnologies.com)

### Through-Hole Technology (TH)

ZYTEQ offers TH or conventional PCB assembly services for both RoHS compliant and legacy, leaded product. This capability can be utilised at all levels from the initial production of very low volume, rapid prototype products through to the on-going manufacture of complex, multi-technology PCB assemblies.

### Product Integration

ZYTEQ is capable of building individual products or multiple units and the configuration of these individual units into systems. These can be configured to the requirements of each customer. We can enhance value for our customers by managing the entire manufacturing process.
